Pet Kiss: Natural Pet Oral Care Products for a Fresher Breath and Cleaner Mouth

It is not just about providing proper nutrition and regular exercises to your pet. It should also be remembered that pet dental care plays an important role in pet health. Nevertheless, many dogs and cats are not fond of teeth brushing procedures. In this connection, various oral-care products may become helpful.

Pet Kiss provides a variety of dental care products which can help you take care of your pet's teeth. There are such products as Brighter Bite Dental Gel, Dental Spray, Water Additives, and Natural Breath Freshener in the product line.

Importance of Pet Dental Care

It is obvious that the cleanliness of mouth can positively influence on your pet's state. Unfortunately, it becomes possible to encounter such problems as plaque, tartar formation, and bad breath in case of ignoring pet's mouth health.

As it is stated by Pet Kiss, most dogs and cats have some problems with their oral cavity at the age of three years. So, it becomes obvious that it is necessary to establish pet oral care regimen.

Proper care will enable you to:

- Maintain clean teeth.
- Provide fresh breath.
- Have an oral hygiene routine.
- Ensure easier dental hygiene routine.
- Enhance your pet's general well-being routine.

Consistency is very important because routine that you can manage every single day is better than sporadic intensive dental cleaning.

Pet Kiss Brighter Bite: Convenient Oral Hygiene Products

Pet Kiss Brighter Bite range has been developed specifically for making pet oral hygiene easy. The whole kit of pet oral hygiene includes an 8oz Dental Rinse, 4oz Dental Gel, and 4oz Dental Spray.

Pet Kiss Brighter Bite Dental Spray: Everyday Dental Hygiene Without Brushing

According to the product description, the Pet Kiss Brighter Bite Dental Spray is created to be used in convenient brushless daily routine. The spray consists of such ingredients as zinc, chlorophyll, propolis, grapefruit, and vanilla mint. It does not contain any alcohol.

Therefore, the spray could be helpful for pet owners who are looking for convenient ways to clean their pet's teeth without the necessity to brush teeth.

Dental Gel for Clean Teeth and Bad Breath Free Mouth

The next solution offered by Pet Kiss is the Brighter Bite Dental Gel. This gel is claimed to help clean the teeth of dogs and freshen their breath without any brushing required.

Besides, the all-natural composition of ingredients makes this product good for those pet owners that prefer to use more natural solutions for daily oral care.

Water Additives for Convenient Daily Oral Care

When your pet refuses to have any kind of treatment applied directly to his mouth, you may want to try water additives as they can provide you with the easiest way to do this.

The Pet Kiss Brighter Bite Water Additive is meant to be used when your pet drinks water daily.

As a result, it becomes easy to fit the application into your schedule and make sure that it is applied regularly.

Pet Bad Breath Is Part of Pet Care Too

Having a dog usually implies having a certain smell that comes from him. But bad breath should not be considered just another feature of owning a pet.

Instead, you should use this sign to pay more attention to the condition of your pet's mouth. That's why there is a Natural Breath Freshener by Pet Kiss made of parsley seeds and sunflower oil.

It can help you get rid of bad breath of your dog without using pills or tablets.

Pet Oral Hygiene Care Routines Made Simple

First, make sure to choose the right products based on your pet and your schedule. Second, apply those products regularly following their instructions.

For example:

- Start small. Let your pet get used to the product.
- Consider the convenient form. Choose the spray, gel, water additive, etc.
- Make sure that you follow the routine.
- Keep monitoring the changes in your pet's breath, teeth, gums, appetite and general comfort.

- Have the professionals do what is needed from time to time. Home care will serve only as an additional measure.
- Besides, regular monitoring will allow you to detect the changes early.

Why Choose Pet Kiss?

Pet Kiss has been producing natural oral-care products for pets since 1994. The brand specializes in all-natural products aimed at promoting better health and happiness for animals naturally.

The product line currently includes Brighter Bite dental products, natural breath freshener and a number of water additives.

Moreover, the products of Pet Kiss are developed with everyday oral hygiene in mind. This means that Pet Kiss products are especially suitable for the pet parents who would like to create a convenient pet oral care routine.
